

BATTLE

How to interpret score

The Scale

3-5

"Bad!"

6-8

"Not good".

9-11

"Not enough. I don't think you should go through next round"

12-14

"Good but maybe not enough for going to the next round"

15-17

"Dope round! Normally enough for going to the next round"

18-20

"You must go through the next round no matter what!!!"

A mark colored in red is a score isolated from the other judges's. Meaning the score is at least 3pts below or beyond the other marks.

When two judges having barely the same mark (up to 2pts difference) face two other judges having also the same mark but with at gap of three points, the marks are colored in orange for the two judges who scored low and green for two judges who scored higher

Everybody is free to interpret those results as they want, it's for educational purpose
