

BATTLE

How to interpret score

The Scale

A mark colored in red is a score isolated from the other judges's. Meaning the score is at least 3pts below or beyond the other marks.

When two judges having barely the same mark (up to 2pts difference) face two other judges having also the same mark but with at gap of three points, the marks are colored in orange for the two judges who scored low and green for two judges who scored higher

Everybody is free to interpret those results as they want, it's for educational purpose
