52	Jana	12	8	14	12	11,5
53	Shean	0	0	0	0	0

A red mark indicates that it deviates by at least three points from the other marks. Green and orange happen when the jury is split in two side where the green mark are the higest score and the orange the lowest.

Marks interpretation

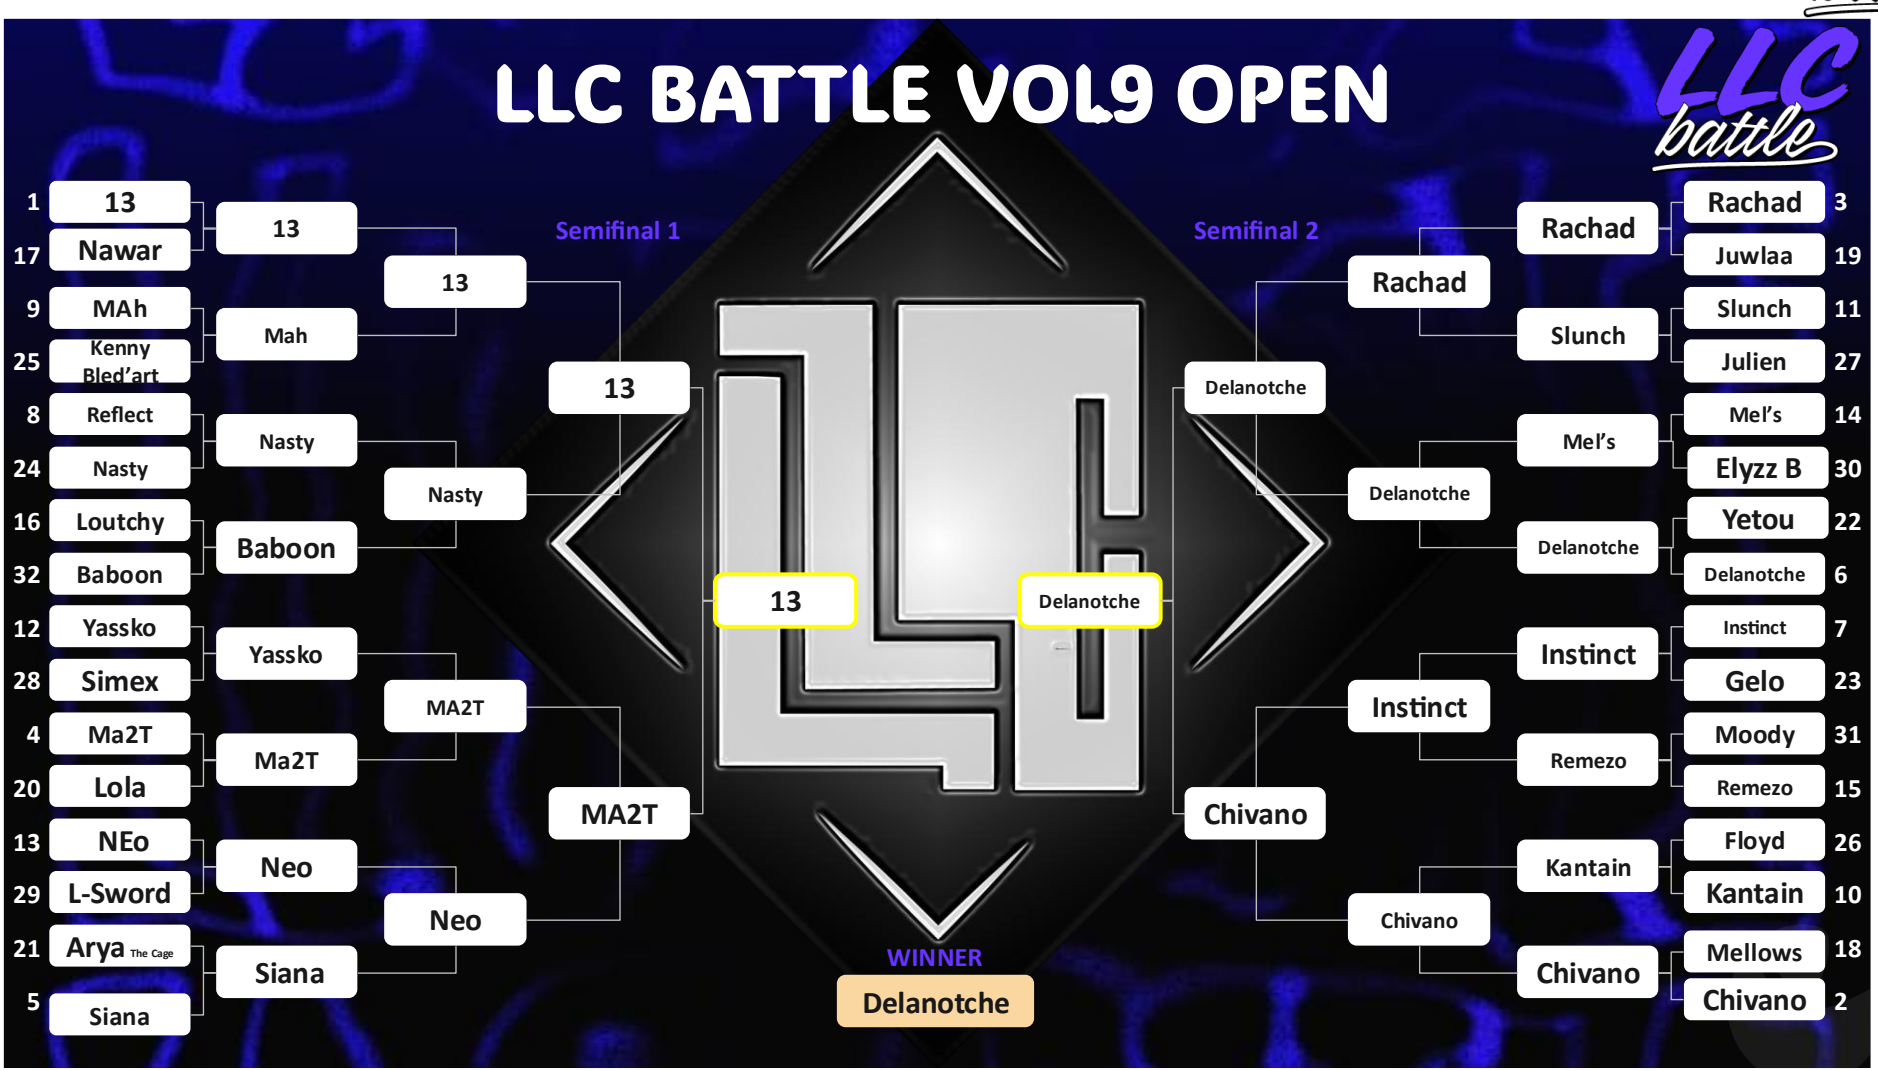

Some statistics note:

Qualification score is **14.75/20** for Top53 and **13.75/20** for top 32
Mean score pool A is **13,3/20** (standard deviation[1] is **2,20)** ; **11,89/20** (sd = **2,94**) for pool B ; **14,54/20** (sd = **1,73**) for Top 53
The mode[2] is **13/20** for pool A **; 10/20** for pool B **; 14/20** for top 53
Median[3] (p50) is **13,5/20** for pool A **; 11/20** for pool B **; 14/20** for top 53

[1] *The standard deviation shows how tight or spread out the performances were: if everyone danced at a similar level, it's small; if some dancers were much stronger or weaker than others, it's large.*
[2] *The mode is the "most given score" during the prelim.*
[3] *That's the score which divide the ranking in two. Half of the dancer had more than the mean score*
